Briskheat Drum Heaters

Model# SRLDHC300120

Our Best Selling Drum Heaters!

- Safe for outdoor use
- Efficient for freeze protections and viscosity control

Product Description

- Thin-line design provides practical, efficient freeze protection and viscosity control for melting and maintaining materials at elevated temperatures.
- Wrap-around design with spring fasteners assures easy installation.
- Totally integrated watertight assembly prevents environmental moisture from interacting with circuitry.
- Safe for outdoor use.
- Available with a fully encapsulated thermostatic controller. Controller has adjustable setting from 50°F to 425°F.
