# Imperial V Controllers

Single Set Point Controller

Single Set Point Controller
- Simultaneous display of set temperature and actual measured temperature.
- Adjustable high limit safety thermostat.
- Standard controller for the Imperial V digital, mechanical ovens.

Single Set Point Controller With Optional Timer

Single Set Point Controller with Optional Timer
- Same features as single set point controller with additional 24 hour timer.
- Timer can be set for 24 hours in 15 minute increments.

Four Program Controller
- Programmable—four programs, each with eight ramps/dwells.
- Option "C"—ramp from as low as 1°C per minute, dwell from 0 to 999.9 hours.
- Option "D"—ramp from as low as 1°C per minute, dwell from 0 to 999.9 minutes
- Adjustable high limit safety thermostat.

Four Program Controller

Multi-Program Controller
(Not pictured)
- Programmable—four programs with six steps each.
- Ramp adjustable from as low as 0.01°C per minute.
- Adjustable high limit safety thermostat.

Stacking Racks
- Allows two ovens the same size to be stacked and operated safely. Fan removes heat generated by bottom unit, preventing damage to top oven.

Stacking rack

ACCESSORIES		
Controller Model*	**Description**	**US List Price**
B	Multi-program controller with 4 programs with six steps.	$2,206.26
C	Four program controller with 4 programs; each program has 8 ramps and 8 dwells. Timer allows you to ramp in minutes and dwell in hours.	$2,671.31
