

No-Wire™ Autoclavable Test Tube Racks

Submersible! Stackable! Color-Coded!

A great alternative to wire racks, with price and space saving advantages over other plastic racks currently available. These submersible racks are molded of a special blend of autoclavable polypropylene. They will sink in a water bath and maintain their stability even in agitated water. No-Wire™ racks are also perfect for use outside the water bath, and meet the exacting needs of daily usage in the lab. Supplied in numerous hole sizes, the racks are available in three colors for safety and identification in the lab.

Each rack features end plates for labeling as well as numbered and lettered rows for tube identification. Interlocking feet allow stacking of racks for storage. The grid form base has holes 2.16mm (.085) square. Assembly takes only seconds with fold up sides and end bars that lock into rack tops. Outside dimensions are all the same at 246 x 104 x 64mm high (9.7 x 4.1 x 2.5"). Steam autoclavable at 121° C (250° F). **Per each, 8 per case.**

No Wire™ Polypropylene Racks Won't Float in Your Water Bath

No-Wire™ Multi-Tube Racks

Hold a Combination of Popular Size Centrifuge Tubes in One Rack

Perform an experiment and hold required reagents using one space saving rack. Choose from two rack configurations; one rack holds three different size tubes, (four 50ml, seven 15ml and twenty-five 1.5ml centrifuge tubes); the other rack holds three different size tubes (six 50ml and twelve 15ml centrifuge tubes). Both styles accommodate round and conical bottom tubes. All parts are molded of white polypropylene and steam autoclavable 121°C (250° F). Racks are shipped flat and assemble easily. Dimensions 246 x 104 x 64mm H (9¹¹/₁₆ x 4¹/₈ x 2¹/₂" H). **Per each, 8 per case.**

Safely Decant All Tubes at Once!

No-Wire™ Grip Racks

Test Tubes 'Hang in There' in Any Position, Even Inverted!

The No-Wire™ Grip Racks are great for both decanting and water bath work. Four retainer fingers in the two plates of the rack hold tubes firmly in any

position with no fear of dislodging while pouring. The racks are molded of a special blend of autoclavable polypropylene that is heavier than water for submerging into water baths. They are also perfect for every day lab use. Each rack features end plates for labeling as well as numbered and lettered rows for tube identification. The grid base has square holes 5mm (0.2") wide and fold up sides that lock firmly into the grip decks. Assembly takes only seconds, and unloaded racks are stackable. All sizes are 248 x 105 x 70mm high (9⁷/₈ x 4¹/₈ x 2³/₄"). Steam autoclavable at 121° (250° F). Available in white only. **Per each, 8 per case.**

| F18749-0001 | 15-16mm | 60 | 5 x 12 | 13.65 |
| F18749-0002 | 18-20mm | 40 | 4 x 10 | 13.65 |

No-Wire™ Round Racks

Use in Round Ice Buckets, Desiccators and Beakers

No-Wire™ Round Racks fit neatly into round containers such as ice buckets, desiccators and beakers. Two sizes are available: a large rack (149mm in diameter) for vessels 155mm diameter or larger, and a small rack (95mm in diameter) for containers 100mm in diameter or larger. The large rack is ideal for use in a standard ice bucket and the small rack fits perfectly in a 1000ml beaker. The small rack also features a removable, snap-on, swiveling loop handle for easy retrieval from a beaker. Molded of a special blend of autoclavable polypropylene that is heavier than water, No-Wire™ Round Racks remain stable at the bottom of water baths or ice baths. All racks have a base and two tiers of grids with numbered and lettered rows for identification. Each base has four feet which fit into the top of identical racks for stacking. Steam autoclavable at 121° C (250° F). Racks are shipped flat and can be easily assembled without tools. Instructions included. **Per each, 8 per case.**
