Thermolyne Hot Plate and Hot Plate Stirrers

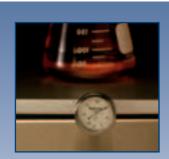

Explosion-Proof SAFE-T HP6 Hot Plates

Explosion Proof Hot Plate

Optional dial thermometer used to monitor top plate temperature on explosion-proof bot plate. 1.0" (2.5 cm) dia. face, .250" (.635 cm) diameter stem x 2.5" (6.4 cm) length. 0-300°C scale range.

Unit includes 1/2-inch (1.3 cm)conduit and 18-inch (45.7 cm) lead wire for electrical book-up as per UL requirements.

Explosion Proof!

- · UL listed explosion proof
- Thermostatic control
- Over-temperature safety control

Product Description

- UL listed explosion-proof for Class I, Group C and D atmospheres. Contact Barnstead International customer service department for a complete list of applicable atmospheres, 1-800-553-0039.
- \bullet Thermostatic safety is set at 243°C for added protection.
- Maintains temperature within ±5.5°C (9.9°F).
- Corrosion resistant steel case is easily cleaned and maintained.
- Cast aluminum top plate provides maximum heat transfer for excellent temperature uniformity (±6.5°C or 11.7°F).
- Accommodates up to 25 lb (11.3 kg) loads.
- Sealed aluminum housing contains and protects controls from explosive atmospheres.
- Accommodates metal vessels/containers.

Application

- Recrystallizations utilizing organic solvents
- Dry/heat-treat silicon wafers
- Use the SAFE-T HP6 to turn your Type OV10600 hot plate oven into an explosion-proof oven. Features a 216 cubic-inch (3511.8 cubic cm) aluminum heating chamber; ideal for drying, baking, pretreating, and curing applications.
