

## **LASER POINTER 330001 — NEW MODEL**

Sturdy construction and long battery life allow for heavy use as a teaching tool for scientific presentations, conferences, lectures, seminars, and planetariums. The attractive metal pen shaped unit can be easily carried in a shirt pocket. Projects a brilliant red dot clearly visible even in bright ambient light or with video, film, and slide presentations. Runs for a minimum of 18 hours continuous use on 2 standard alkaline batteries (included).

330002R (red)

## **LASER POINTER 330002 — NEW**

Keep on a key chain and have a laser pointer always on hand for occasional use. Battery life of about 1 hour of continuous use. A unique transparent plastic safety tip alerts the user that the beam is on. The strong metal case comes in a choice of attractive colors:

330002B (blue)

330002G (green)

330002S (silver)

330002GD (gold)
